

365 Presentation Schedule

Your presentations are scheduled as shown. If you miss your day without any explanation AHEAD OF TIME, you get a 0. If you're doing a powerpoint (you don't have to), it needs to be saved as a .ppt, not a .pptx. In order to be certain it's going to work, please send it or bring it to me a day ahead.

Name	Article	Presentation Date
Alexis Nesmith	Regressive Evolution in Cavefish: Nat'l Selection or genetic drift	Mar 3
Obi Ekechukwu	Evolution of tolerance of PCBs/pathogens in Atlantic Killifish	Mar 3
Lex Caraballo	A gene network model accounting for evol of mammal teeth	Mar 3
Katie Lawson	Sexual selection drives rapid divergence in bowerbirds	Mar 10
Megan Sadler	Evolution of color pattern and pubescence in male bumblebees	Mar 10
HeatherCataline	Home range ecology of an introduced population of wall lizard	Mar 24
Ben Sochor	Behavioral processes and costs of co-existence in female hyenas	Mar 24
Emily Menas	Parental care and egg size evolution	Mar 24
Victoria Day	Experimental evidence for sig of temp dependent sex determination	Mar 31
Jessica Davis	Human offspring smaller when born after brothers	Mar 31
Dominic Woo	Life history variables and risk-taking propensity	Mar 31
Aaron Knicely	Evolution of early foraminifera	Apr 9
Carrie Miller	Evolutionary mechanisms of limb loss in tetrapods	Apr 9
JR Bradley	"Reverse ecology" and the power of population genomics	Apr 9
Kirin Denton	Evolutionary interaction among species	Apr 9
Adam Edwards	Holocene environmental history and evolution of a salt marsh	Apr 21
Tonya Martin	Coral reef communities as prime resources for analysis of evol	Apr 21
Derek Grafton	Humor as a mental fitness indicator	Apr 30
JessicaAnderson	Risk taking as a situationally sensitive male mating strategy	Apr 30
Melissa Rice	The bilingual brain: evolution + second language acquisition	Apr 30
